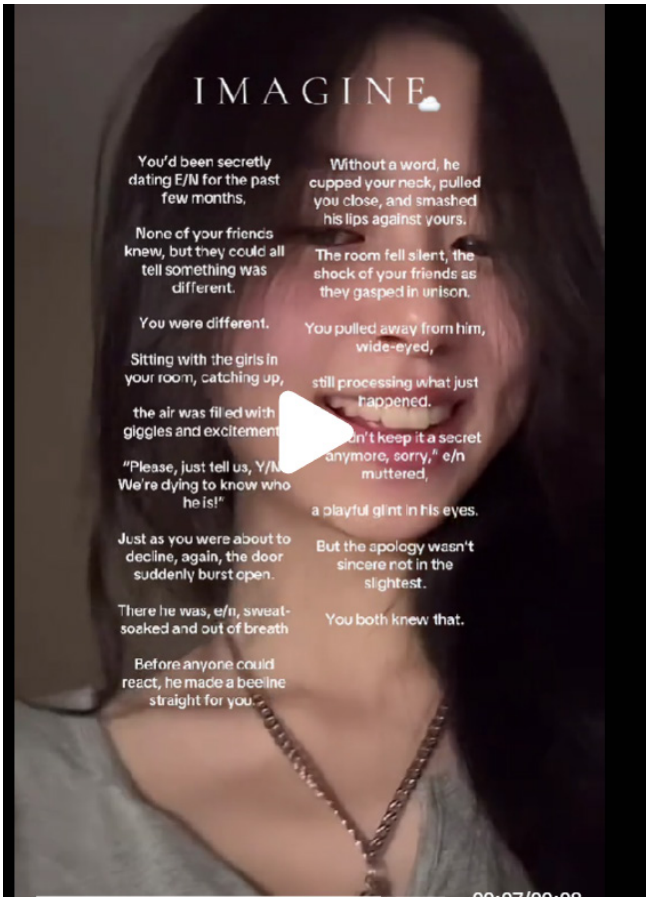
no crushes. Finally.
Dream Scenarios
(No Crushes)
1
You find yourself floating toward
a shimmering castle in the clouds.
The drawbridge lowers as you approach,
revealing a grand hall filled
with stars and constellations swirling above.
You hear a voice welcoming you,
but the source is unseen.
2
In an enchanted forest,
the trees begin to whisper your name.
Their branches sway gently,
as if guiding you deeper into the woods.
Suddenly, they reveal a hidden
pathway lit by fireflies, leading
to a secret you've long forgotten.
3
In the highest tower,
you find a room filled
with floating orbs of light.
Each orb represents a wish
that's been made in the castle.
The air hums with magic as
one orb drifts toward you,
glowing brighter than the others.



IMAGINE
You'd been secretly dating E/N for the past few months.
None of your friends knew, but they could all tell something was different.
You were different.
Sitting with the girls in your room, catching up,
the air was filled with giggles and excitement.
"Please, just tell us, Y/N! We're dying to know who he is!"
Just as you were about to decline, again, the door suddenly burst open.
There he was, e/n, sweat-soaked and out of breath
Before anyone could react, he made a beeline straight for you.
Without a word, he cupped your neck, pulled you close, and smashed his lips against yours.
The room fell silent, the shock of your friends as they gasped in unison.
You pulled away from him, wide-eyed,
still processing what just happened.
n't keep it a secret anymore, sorry," e/n muttered,
a playful glint in his eyes.
But the apology wasn't sincere not in the slightest.
You both knew that.
